Drawings

Drawing F-104 (Visitor Grandstand ADA Modifications)

- At new ramp, provide 35'-0" long by 5'-0" wide concrete pad for new ramp footing to be placed on. Concrete to be 4" thick over 6" crushed stone. Concrete to meet up with grade with smooth transition.
- ADA seating shown on the plan can be placed in location where best suited for bleacher modifications. There must be six (6) total new ADA seats and meet code. Final configuration can be determined by contractor for best pricing options.
- Include a 2-line railing (30" tall) to be placed in front of row 3, behind all handicap spaces. Six total rails at each handicap space.
- New concrete pad to be bid as part of Alternate #6.
- New 2-line railing to be bid as part of Alternate
